May we find the three together,

it is quite generally known that
the Confederate government was
troubled to considerable extent in
procuring salt-peter and nitre from
which to make gun powder, so it be-
came necessary that the following
advertisement be published in the
Selma Alabama Times in Oct-
1862.

The ladies of Selma are requested
to, preserve the chamber-eyes
collected on their premises for the
purpose of making nitre,
a barrel will be sent around daily
to collect it for the nitre and
mining Bureau

John Harrison

A Confederate officer. Who was
a great-wag and somewhat of a
sack-bellimented in this ad-

follows
a John Harrison John Harrison
li you are, funny creature
to you have added to the dread-
ful was a new, and funny
feature,
we you've have us think that every
man was, borned to be a fighter,
so and the ladies bless the little dears
the should save their pins for nitre
Ha John Harrison John Harrison
po Where did you get the notion,
in to send your barrel a round
ab the town to gether up the
en lotion

er we thought the girls had
be work enough in making
tr shirts and kisses
Ma but you have put the pretty
for dears to patriotic pissing

John Harrison John Harrison
do pay in with a heater,
and some what more modest way
of making your salt peter
for tis a dreadful idea, gun pow
er and cranky,

That every time a lady lifts
her skirt she shoots a bloody
Yankee

It happened that the above
lines,

got into the hands of a
Federal officer

who new a good thing when
he saw it and blawed in
pushing it along so he
wrote what he called a
federal new of it.

John Harrison John Harrison
We read in song and story,
that women teard through all
the year had moistened faces
of glory.

But never was it told before
How, midst these scenes of
Slaughter,

the southern beauties dried
their tears and went to making
water

It's wonder that your boys
are brave - who would not
be a fighter

as every time he used
his gun. He used his
sweet-heart - nitre
and vice-versa what would
make a Yankee soldier
sadder

that dodging bullets fired by
a pretty woman's bladder
they say there was a subtle smell
which mingled in the powder,
and as the smoke grew thicker and
the din of battle louder
But there was found in this
compound. one serious
objection-

No soldier boy could sniff it
without having an erection

a new gold field

a miner who, with his wife had
long, been located in the
California gold region, but
had not been very successful,
was one day presented by his
wife with, a bouncing baby
weighing 12 pounds.

some mischievous fellow started
the report that Jim Marsden
had taken out, a twelve
pound lump. This
intelligence was circulated
about two weeks after the
event causing great
excitement, for many
believed the story and
two strangers called at
Marsden's house one day
for the double purpose of seeing

on the lump and in hope of
affecting a bargain with
Marsden. They reached the
house but Mrs Marsden only
was at home. When the
following dialogue ensued:
We are told that your husband
took out a twelve pound
lump. you were correctly
informed said the lady
who saw that the gentleman
were quite sincere

Having been deceived then
is he working the claim a
lone was the next question
yes same what help he gets
from me. replied she
slightly blushing
ah then the spot is not
far from here

it is quite near, was the
reply. Can we see it - ask
they eagerly oh no I couldn't
think of showing it to you
replied she. How long has
he been digging at it: a
little over a year

Has any one been digging
there before him. No indeed
answered the lady with a
blush. do you think he
would sell part of the
claim? am quite shure
he would not was the
reply. Nor work it on
shares Madam. No sir
has the lump still
certainly here it is
said the uncovering the
baby

th Sold by thunder cried
a they, as they rushed out of the
th Shanly.

The following conversation
took place between a
certain young lady and
a cycle doctor.

Doctor? I wish you would
examine my box
your what? My box that
thing in the middle of my
frame you know
The other evening when
I was out on the path with
Mr Brown it got hot
he felt it and said it
felt sandy. ah yes is
there any thing else

yes; when Mr Brown and
I got to going Hard my
frame trembled all over.
and I felt as if I could
not take a nother stroke
and I had to hollow to Mr -
Brown and he got off and
we rested I guess that is all
except that one of my
nipples leaks.

The Doctor examined the Boy
and found it to be as pretty a
piece of work as was ever
put in the center of a fram
but very badely used, and
prescribed two new washers
and a valve stem for the
front tire and sent the
young lady on her way rejoicing.

if an op is two and one half
times stronger then a ass, and
an ass is two and one half times
tougher then an op, and if it takes

to cook an ass whole.

Have you noticed how the women
as along the street they pass
pull their dresses tight around them
so the men can see their ass
and the men the fory devils
keep their eyes locked every brand -
sizing up the plump asses
wondering what there can be in it

Some women have fine asses
and well they seem to know it
and most of them seem easy
to get a chance to show it.
But they tell me that false asses
are coming in demand
and its its hard to tell the genuine
From asses made by hand.

I walked behind on market
an ass built up to date
it keeps me in a blissful trance
From forth it up to Eight.
But when she went to take a car
Her foot slipped on the track
Part of her ass got twisted and
Slid half way up her back.

I am in favor of a curfew and
I hope the bill will pass
we ought to have another
to govern woman ass
the married men wont tempt be
out side ass theyll leave a love
and tend to the little asses
which they may have at home.

We all have our own notions
of what an ass should be
I want a chunky soly-poly ass
good enough for me.
For the sloppy ass and the fatty ass
I simply have no use
and I think the skinny stuffed out
is a very poor excuse ^{ass}
